NEWPORT DAILY NEWS.

TUESDAY MORNING, JULY 21, 1857.

Mr. EDEN TOURNER is hereby authorized to transact for us any business connected with the NEWS and JOURNAL OFFICE, on this city.

ON THE OUTSIDE OF THIS ISSUE.—First Page—Miscellaneous.

In consequence of some of our editorial remarks of yesterday, we have received an urgent intimation, that if we opened our columns to a free discussion of the matter of lighting our streets the result would be to seriously injure our business. In answer, we have only to say, that we deem it not only the privilege but the duty of a public journal to speak freely and fearlessly upon all subjects in which its readers generally are interested; and we know of no topic at the present moment in which our readers feel a greater interest than in that of whether our streets shall, or shall not, be lighted. There are two points upon which all agree; first, that our streets ought to be lighted, if they can be at a reasonable or customary rate; second, that the fact of their not being lighted implies fault on the part of some one.

To trace that fault to its proper source and to condemn the guilty and acquit the innocent is the business of the whole community, and we know of no better guide to an impartial verdict, than to "HEAR BOTH SIDES AND THEN DETERMINE." For this purpose we have offered the columns of our paper, little thinking that any honest man could object to our purpose, much more make use of an intimidating argument to control or suppress our independence. Our friend must certainly be aware that TRUTH NEVER SHUNS INVESTIGATION, but error, seeks every subterfuge to hide its head.

The freedom of the Press, is the strong hold of our national liberty, and the right of every man to speak out his honest convictions of right and wrong is the dearly prized birthright of every American citizen; and every attempt to suppress that independence is subversive of free government and degrading to society at large. To feel that we could not in a respectful and manly way express our own views upon this ever growing topic of the day, would be to feel that we were a mere abject slave, and were we to be intimidated into speaking only on one side of a question in which the community have a common interest, we should feel unworthy of public confidence or respect.

WE WISH OUR READERS DISTINCTLY TO UNDERSTAND THAT WE ARE THE SOLE OWNER AND PROPRIETOR OF THE DAILY NEWS ESTABLISHMENT IN THIS CITY, AND ARE UNWILLING TO NO ONE IN NEWPORT, OTHER THAN TO OUR ADVERTISING AND SUBSCRIBING FRIENDS, FOR THE MEANS OF CONDUCTING OUR BUSINESS. Our paper we are glad to sell at a penny a sheet, but our principles we have not yet been compelled to fix a price upon. We believe that our true interest lies in speaking honestly and fearlessly upon every subject upon which the public desire information, and we trust that for pursuing such a course, we shall not be compelled to hold up for public censure, the ill-vised persecutions of any man.

We do not propose, at any time to publish communications of a personal or vindictive character, nor those of an immoral tendency, but shall hold ourselves as heretofore ready to discuss any subject which may be of interest to our citizens; and we shall endeavor at all times to protect the whole community from any and all speculations and wrongs which may be aimed at it by designing men or factions.

FIREMEN'S RIOT IN ST. LOUIS.—A riot took place early on Sunday morning last, between the Liberty Fire Company and the Franklin Company, of St. Louis. They had assembled at a fire, when some misunderstanding occurred relative to the working of their engines, and the Liberty boys at once pitched into the others, and pelted them with rocks and bricks. The fight then became general, and firearms were freely used. Two persons were shot, and both badly wounded. One, it is thought, cannot recover. The fight ended by the Franklin Company being driven from the ground.

THE DEATH OF YOUNG STOWE.—The Manchester American has the particulars of the death of young Stowe, son of Professor and Harriet Beecher Stowe, by drowning, at Hanover, N. H., on the 9th instant. He went into the water with several of his classmates, to bathe, and after being in a few minutes became exhausted and cried out for help. His room-mate and another young man went to his relief, but their efforts to save him were unavailing. Stow sank but once, and remained under water about twenty minutes before he was taken out. Life was not then extinct, but he was so far gone that he expired in a few moments. He was drowned only about four rods from the shore, and his body could be seen when lying at the bottom. His remains were carried to Andover in charge of a committee of students, consisting of one from each class. The deceased was nineteen years of age, a fine scholar, and a youth of much promise.

A western editor, in dunning his subscribers, says he had responsibilities thrown upon him which he must meet. His wife has presented him with twins.

When we see a pretty female foot, we naturally conclude that it belongs to a beautiful woman—on the principle that "all's well that ends well."

LOCAL NEWS.

Manufacturers generally are at such a low ebb in this city that any flourishing establishment of that description is worthy of particular mention from the nib of our "local" pen. We take this opportunity, therefore, of inviting attention to the inducements offered to customers by Mr. Simeon Moffit, of the City Steam Planing Mill, at the corner of Sherman and Spring streets. The work turned out at this factory is all that could be desired, both in style and variety. By reference to our advertising columns it will seem that Mr. Moffit is accustomed to execute all sorts of jobs pertaining to his business. We can guarantee for the completeness and finish of his work.

We are surprised at learning from the New Bedford Mercury that the annual regatta of the New York Yacht Club will probably be held at that port, about the 10th of August. It was supposed that the superior facilities offered for such an event in Newport harbor and Narragansett Bay, would be sufficient to decide the authorities of the squadron in favor of this place. However, we wish our New Bedford friends great joy on the occasion, which is always one of remarkable interest to the inhabitants of American sea-ports.

In our notice of the Musical Reunion of the Germania Society, yesterday morning, we were mistaken in naming Mr. Helmsmüller as the leader of that band. Mr. Wm. Schultz is really its chief. The former gentleman is connected with the company as the agent of its business affairs.

We publish below a note in regard to this matter which we received from Mr. Helmsmüller.

EDITOR NEWPORT NEWS.—DEAR SIR:—

In your notice of the Musical Reunion of the Germania Society in yesterday morning's number of your paper you have made a slight mistake by naming me as their former and present leader; please correct this statement, as my connection with the Germanians has only been to attend to the business affairs of said Society.

Mr. Wm. Schultz is the leader of the Germanians. Yours truly, F. B. HELMSMÜLLER.

R. I. LODGE, No. 12, I. O. of O. F.—The following officers of this Lodge were installed on the 13th inst., for the ensuing semi-annual term, viz:—

John C. Stoddard, N. G.
Charles W. Burdick, V. G.
Jra French, Treasurer.
Wm. N. Ward, Recording Sec'y.
Henry H. Greene, Perm. Sec'y.

This Order we are pleased to learn is in a prosperous condition, having about fifty members and in their treasury two thousand dollars.

We are pained to learn that a son of Mr. Tiffany, who resides on Bellevue avenue shot himself, accidentally, with a pistol yesterday morning. We understand that the wound is a severe one, and that the ball has not yet been extracted, but hope to report to-morrow morning particularly and favorably of his case.

We are informed that M. E. Lewis, of Havre de Grace, Maryland, has taken Mr. Perry's Cottage in Perry street. And that Mr. Robert McLane has taken Mrs. Mary's Cottage in Redwood street.

It is proposed to get up a company in Fall River with a capital of \$25,000 to manufacture glass ware.

During the week ending 18th. inst., there were landed in Providence 38,400 bushels corn, and 5,020 tons coal.

The city of Providence spend annually about \$35,000 for lighting streets.

PRESENTMENT.—The Troy papers state that Mr. Mary's daughter had a singular presentiment of the death of her father. She passed the Fourth with an acquaintance in Troy, and in the forenoon was observed to be depressed in mind. On allusion being made to the circumstance, she said she was unaccountably impressed with the fear that a signal calamity had overtaken some member of her family. Early in the afternoon the news of the death of Gov. Marcy reached the city, and it was known to gentlemen composing the party in which Miss M. was, some time before it was communicated to her. While the gentlemen were in a room by themselves discussing the manner of conveying to the daughter the sad intelligence, and before she could by any means have received the least intimation of the event, she suddenly threw her handkerchief over her face, and evidently in deep grief retired alone up stairs.

JOINING A FASHIONABLE CHURCH.—The Methodist Protestant says:—

One of the late reasons assigned a few days ago for leaving the Methodist Church and joining a more fashionable congregation may be found in the following conversation: "Is it possible, Mrs. S.," said one lady to another, "that you are going to leave our church and join at Rev. Dr. —?" "Yes," replied the lady, "I have concluded to go with my daughters. They say the seats in old Easton are so close together that they must either leave off hoops entirely or leave the church they have been in the habit of attending. Now at Dr. —'s the pews are large and wide, and ladies can get in and out without much trouble. I think I shall have to go with the girls."

ELECTION OF A CANADIAN BISHOP.—The Rev. Mr. Cronyn, of London, Canada West, has been elected to the newly created Bishopric of Canada West. His majority was one vote. His competitor was the venerable Archbishop of York.

GENERAL NEWS.

Correspondence of the Daily News. New York, July 18, 1857.

Mr. EDITOR:—We are drawing near the dog-days—the weather has been excessively hot and sultry the past week, and the flight of our citizens to the country continues unabated. I need not add, that business of every variety is dull, except at the soda shops and bath houses. Yet grand old Broadway, though measurably shorn of much of its accustomed beauty and splendor, is still the gayest and busiest street on the continent; and the list of daily arrivals at the hotels seems little if at all diminished by the fervent heat which sends so many thousands out of the city.

Politically and literarily, New York is as dull as possible. Even the fighting sachems and sages of Tammany hall—the Indian "Democracy," who have done nothing but quarrel among themselves for months past—have yielded to the soporific influences of the weather; and if they have not escaped to the country, they must be reposing after the battle, for the gleam of their council fires, hatchets and scalping knives, is no longer visible. The rotten old *Journal of Commerce*, and the two or three other wretched apologies for Democratic dailies, are feebly repeating their accustomed slanders and falsehoods against Republican men and measures, as though they didn't half expect any body to believe it.

W. C. Bryant, of the *Post*, and H. J. Raymond, of the *Times*, are spending the summer in Europe. Geo. W. Curtis, one of our choicest and most popular authors, and an eloquent advocate of Republican principles, is engaged to deliver addresses before literary societies, both at Union and Dartmouth Colleges, at the ensuing commencements. John Pierpont and Henry Ward Beecher are also both promised at Union College, on the same occasion. Mrs. Elliot, who ranks among our best educated and most readable writers, is penning literary notices and varieties for the *Express*; Alice Cary is writing indifferent verses for the *Leiter*; Anne C. Lynch is married, and if not lost to the literary world, I hope we shall ere long hear from her, for she is capable of as true poetry as any woman in this country.

Rufus W. Griswold, compiler of the "Poets, and poetry of America," is, I fear, just at Death's door, from a long and painful affection of the lungs.

There have been, within the last three months, not less than thirty cases of manslaughter and murder in this city; and yesterday witnessed the first instance of capital punishment that has been inflicted here for two years. A poor, intemperate, black man—John Dorsey—for whose neglected moral training and subsequent vicious associations, himself could not have been alone responsible—was hung at the Tombs, at 10 o'clock, for the murder of Ann McGivern, alias Hopkins; the evidence of which offence was wholly circumstantial, yet so strong that Gov. King did not deem it proper to commute the sentence. In view of the multiplied and horrid murders above referred to, and of this one particular instance of gallow punishment, I cannot help thinking that if Dorsey had been white and rich, instead of poor and black, he would in all probability have escaped the fate that has befallen him, even though quite as guilty.

The public executions in the city and county of New York have been only 23 in number since 1816—being 41 years.

Slowly—reluctantly do the Mayor and his adherents yield to the requirements of the new police act. After a great deal of backing and filling by the Board of Aldermen, relative to the Police Telegraphs and Station Houses, that illustrious body have at last decided to make over the use of these institutions to the new police. But the rooms in the City Hall heretofore occupied for the office of Chief of Police, are not to be had—at least not yet—the city Fathers having directed Mr. Devlin, the usurping Street Commissioner, to occupy them for the present. And one of Mayor Wood's cronies, has procured an injunction by one of the Judges of the Common Pleas Court, to prevent the payment of the new police—which impediment of course cannot long stand—but it shows the baseness and malignity of the Wood gang of politicians against Republican rule.

RAMBLER.

The riots in New York seem to be on the increase, and unless such proceedings as have disgraced that city for some time past be promptly checked, law and order will soon be at an end in Gotham. The rowdies will yet have to be treated with a show of cold lead unless they desist from their "plug ugly" work. It is of no use to sport with paper balls when dealing with desperadoes, it only exasperates them and emboldens them to the commission of greater outrages. A little of Capt. Bragg's grape should be deluged to them. It is a sure cure in extreme cases.—F. R. News.

ELECTION OF JUDGES BY THE PEOPLE.—The Democratic papers of New York have already commenced their assaults upon Chief Justice Denio for deciding the Metropolitan Police question a cord to law, instead of according to the Democratic party. They say that he has forfeited the confidence of the party, and that he shall not be re-nominated. This is a sad comment upon the popular election of the judiciary.

POOR PRISONERS.—It is stated that not less than fifty German princesses are of an age to be married but there are only a half dozen continental princes in the market. There is consequently much competition and plotting. If these princesses had common sense, they would ship these German ladies to America, where they are good looking and can make good bread, every one of them might marry a sovereign.—Boston Bee.

AN ATTEMPT TO EXTORT MONEY.—THU WILLIAMS FOILED.—A few days since, as a well known citizen was viewing a fire at the South End, a fashionably dressed lady accosted him in the following manner:—"Good morning Mr. —, fine evening, Sir." The gentleman thought he recognized her as a customer at his store, and immediately replied in the usual manner. Pretty soon the lady invited the gentleman to see her home, as there was a large crowd of persons in the street. He very politely complied, and in a short time they arrived at a large brick house in Bedford street, where she invited him to enter. He hesitated, but at last went into the house, and was ushered into a splendidly furnished parlor. In a few minutes two well dressed young men rushed into the room and charged him with having criminal connection with the lady, at the same time drawing revolvers and demanding the sum of \$1,000. He immediately seized a large chair and informed the scoundrels that if they moved an inch both would have to suffer the consequences, at the same time knocking the pistols from their hands. The fellows became frightened at this move on the part of the stout, able-bodied man who was standing before them, and surrendered. On presenting them with his card, they offered him a sum of money to settle the matter. This he refused, and after giving the fellows good advice, and exhorting them never to cross his path again, left the house with an idea in his head that all the crime is not committed in North street and the "Black Sea."—Boston Herald.

SUGAR AND MOLASSES.—The spirit of speculation has taken hold of the Cuban planters and merchants, and they who have heretofore been contented with good returns and fair profits have combined to make their foreign customers pry dear for their sugar and molasses. It is said that within a few months they have organized in Havana ten stock companies representing a capital of more than \$30,000,000, to control and inflate the prices of their sugar and molasses exports. The stocks of these companies are said to be above par, though in most cases very little of the capital has been paid up. It is stated also—though with how much truth we know not—that Cuban capitalists are holders of the greatest portion of the sugar and molasses in this country. They may hold on for a while, but they must suffer in the end, as all such speculations fail, by the operation of adverse causes, beyond the control of the speculators. The speculators cannot shorten the yield in other sugar producing countries, and good sugar crops will force down prices against all speculation. We see it stated that while on the 1st of July, 1856, there were on hand in New York, Boston and Philadelphia, 63,000,000 pounds of sugar, there were, this year at the same date, 140,000,000 pounds on hand, which is equal at the present rate of consumption, to one-fourth of our wants for the ensuing year. The prospect, therefore, is not so good for the Havana speculators as they seem to fancy it is.—N. Y. Sun.

BAD NEWS, IF TRUE.—The Albany Journal has the following paragraph:—

CONGRESS SPRINGS.—A rumor has been rife to-day, that the celebrated Congress spring, at Saratoga, has dried up. This is not the fact. From some unexplained cause, it has become somewhat riley, and has been boxed up, temporarily, to await purification. It is supposed it will be all right in a day or two.

The Saratoga News, alluding to the temporary disarrangement of Congress Spring says:—

"The cause was the giving out of a pipe used in conducting water from the spring to a pump used to fill pitchers. The anxiety of the proprietors to accommodate the public, led them to hurry in fixing it first, some two weeks since, and they have had to do it over again."

DIED.

In this city, on the 15th inst., Jasper S. son of Charles C. and Sarah Ann Heath aged 21 months and 12 days. The funeral will take place on Tuesday afternoon at 3 o'clock, from the residence of his father No. 1 Bridge street. Relatives and friends are invited to attend without further notice.

A CARD TO THE LADIES.

Dr. DORRIS'S Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficacious in correcting, regulating, and removing all obstructions from whatever cause.

All unshod men know, as well as many others, that no female can enjoy good health, unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, Pain in the Side, Palpitation of the Heart, Loathing of Food, and Disturbed Sleep, do not always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils; and may always be used successfully as a preventive. Price 25 cents per box. For sale by HAZARD & CASWELL, 12 W. Washington Square, and 139 Nassau Street. They will apply the trade discount to all orders. Ladies, by order, send to SPURGEON & CO., Box 24, Newport Post Office, can have the Pills sent (confidentially) by mail to any part of the city or country.

GOV. WALKER OF KANSAS COMMANDED PEACE.

WASHINGTON, July 20.

(N. Y. Times correspondence.) The news is confirmed that the President has received a dispatch from Gov. Walker, of Kansas, that he had issued a proclamation commanding peace, and had sent a large military force to Lawrence, to quell disturbances. In accordance with the express wishes of Gov. Walker, Gen. Harney and a sufficient force of the dragoons and light artillery will be detained at Fort Leavenworth till after the October election.

FOUR PERSONS DROWNED.

New York, July 20.—The drop-bridge at the Hoboken Ferry broke down last night, precipitating nearly a hundred persons into the water. One person only was drowned and several others were more or less injured.

A sailboat capsized yesterday in the East River and three passengers, a lady and two gentlemen were drowned.

DEATH OF A VETERAN PRINTER.

Nassau, July 20.—Richard Boylston of Amherst, N. H., the veteran printer, died Sabbath morning at half past 8 o'clock, aged 75.

THE NEW YORK SLAVER.

New York, July 19.—The government, after a careful investigation of the case, has consented to the entry of a decree in the United States District Court, dismissing the libel against the Wm. G. Lewis, recently seized as a slaver, with a certificate of probable cause.

LATER FROM HAVANA.—SEIZURE OF AN AMERICAN VESSEL.

New York, July 19.—The steamer Black Warrior, from New Orleans 12th, via Havana 15th, has arrived.

A Spanish sailor is reported to have been killed in a row with the crew of the American barque Albertina, and the police had taken possession of the vessel. No one is allowed to go on board except the American Consul and his deputy, who had been examining the crew.

The British ship of the line Orion, was at Havana, to sail soon for Halifax.

Sugars unchanged. Stock 240,000 boxes, and of molasses 75,000 lbs. Freights dull.

Havana is free from yellow fever.

THE FLORIDA WAR.—A letter from Key West, dated 10th inst., states that great difficulty is experienced in the attempt to raise a corps of volunteers to take the place of the artillery companies that have been withdrawn from service against the Indians. The Everglades are also dry, and further present operations must be suspended. In September, it is thought that the Florida troops will muster in sufficient number to enable operations to be carried on with some show of vigor.

WHAT IT COSTS TO COMMAND A MILITARY COMPANY.—The McGraw Guards, of Albany, are in hot water from certain actions of Roger McGraw, their commander. (Conceiving himself to be presented, this gentleman has made statement of his connection with the company, the disbursements he has made on account of the same, &c., for the purpose of showing that he is "more sinned against than sinning." From the statement we gather the fact that the cost of his glory since January last was \$37.15, comprising actual and conditional disbursements from his own pocket to meet payments for army rent, uniform, music, muskets, &c. This is paying pretty dearly for the privilege of commanding a military company.

MONSIEUR ALFRED DERRISSE, of the Berkley Institute, will give lessons in the FRENCH LANGUAGE and literature, to those who may desire them, between the hours of 3 and 5 P. M.

under the immediate supervision of one of our
firm, assisted by the most accomplished ex-
perts, for supplying any article in the world.

Particular attention will be paid to the selec-
tion, purchase, and sale of thorough-bred cat-
tle and horses, trained dogs, ferrets and
fancy fowls, carriage, loggys, and saddle hor-
ses, carriages, harness and saddles, and
musical instruments, fishing rods and tackle, music
and musical instruments, yachts, sail and row
boats, furniture, fine wines, liquors, and sea-
sons; cricket and ball bats, pads, &c. &c.

Agricultural Implements,
of the latest and most improved kinds; seeds,
plants, fruit, forest and shade trees, and all
kinds of hedges treating on subjects of impor-
tance to the farmer, horticulturist, and florist.

for Europe, California, the West Indies, or
any part of the world. This will obviate the
necessity to residents of inland towns, and
places where no steamer agencies exist, of
coming to New York two or three weeks in ad-
vance, as they are now frequently required to
do—either to obtain passage, or to secure obli-
gatory accommodations. In this department, we
will be ready to secure

Rooms at Hotels
at favorable rates, so as to protect the stranger
from imposition as well as inconvenience; and,
in short, to perform any description of com-
mission that would ordinarily require the
presence of the party himself.

Gentlemen who desire to form Libraries,
or who may wish to procure the

Choice Literature of the Day,
can always rely upon our judgment and selection.
Also, blank books and stationery, and
book and newspaper, for printers.

quired, the public may rely upon us, with the

DAGUERREOTYPES.
RATHBUN'S
Ambrotype Gallery.

AT APOTHECARIES' HALL, WASHINGTON SQ.
(Near the State House).

THE only place in the city where a
good picture can be obtained. The brilliant-
ness and striking life-like expression of Rath-
bun's Pictures, are daily recommending them
to all lovers of the Daguerreotype. The
peculiar nature of Rathbun's chemicals
superior instruments (for which he has
spared no expense in selecting) are such as to
render his pictures almost nature itself, and
they are entirely devoid of that sickly, death-
like appearance which is generally attached to
Ambrotypes executed by those who do not un-
derstand or have no taste for the art. To all
those who may want a good picture, whether
of a landscape, or of a person, he begs to ex-
tend an invitation to give him a trial, and if
not satisfactory, no charge will be made.

A large assortment of every thing pertaining
to the profession may be found at Rathbun's
Rooms.
